

European Commission: Horizon Europe

1. Data summary

What is the purpose of the data generation or re-use and its relation to the objectives of the project?

What types and formats of data will the project generate or re-use?

Will you re-use any existing data and what will you re-use it for?

What is the origin/provenance of the data, either generated or re-used?

What is the expected size of the data that you intend to generate or re-use?

To whom might your data be useful ('data utility'), outside your project?

2. FAIR data

2.1. Making data findable, including provisions for metadata

2.2 Making data accessible

2.3 Making data interoperable

2.4 Increase data re-use (through clarifying licenses)

3. Other research outputs

3.A Will there be other research outputs that may be generated or re-used throughout their project?

3.B Specify which of the questions pertaining to FAIR data, can apply to the management of other research outputs

4. Allocation of resources

What will the costs be for making data or other research outputs FAIR in your project?

How will these be covered?

Who will be responsible for data management in your project?

How will long term preservation be ensured?

5. Data security

What provisions are or will be in place for data security (including data recovery as well as secure storage/archiving and transfer of sensitive data)?

Will the data be safely stored in trusted repositories for long term preservation and curation?

6. Ethics

Are there, or could there be, any ethics or legal issues that can have an impact on data sharing?

7. Other issues

Do you, or will you, make use of other national/funder/sectorial/departmental procedures for data management?

8. Further support in developing your DMP
